

“ Our friends say, you’re well, you’re active, you’re young, why worry about health care now? For us it was a matter of security. We didn’t want our children to someday have the burden of making the decision as to our healthcare if we were unable to do so for ourselves. We knew we needed to plan ahead and make the decision while we are physically and mentally capable of doing so. ”

Steve & Pat Zwerling, Members
